

The background is an abstract composition of geometric shapes. Large triangles in various shades of blue (teal, dark blue, and navy) are arranged in a dynamic, overlapping pattern. A prominent yellow semi-circle is located in the lower right quadrant. The overall aesthetic is modern and minimalist.

iN.TEC[®]
LIGHT

iNTEC[®]
LIGHT

La nostra storia comincia dal momento in cui l'arte del vetro entra nella nostra famiglia. Siamo agli inizi del 900' e Antonio Tammaro diventa un affermato Mastro vetraio a Napoli, creando , quelle che all'epoca, erano considerate opere d'arte.

Our story began when the art of glass entered our family. We were at the beginning of the 1900s and Antonio Tammaro became an established master glassmaker in Naples, creating what at the time were considered works of art.

Come tradizione insegna, l'arte passa di padre in figlio. Carmine, seguendo le orme del padre, continua con l'arte del vetro cristallo per tavolame, ma l'avvento dell'industrializzazione lo costringe a un cambio di rotta: lavorazione di vetro soffiato per illuminazione. Fonda così ,alla fine degli anni 50', la V.E.CRI.N.

As tradition teaches, art skill passes from father to son. Carmine, following in his father's footsteps, continued with the art of crystal glass for tableware, but the advent of industrialization forces him to change course: starting the processing of blown glass for lighting. Thus, at the end of the 1950s, V.E.CRI.N. was founded

Negli anni 80' nasce la vetreria Tammaro e figli. Il salto generazionale porta parte del processo produttivo alla meccanizzazione che, affiancata alla classica lavorazione del vetro, permette all'azienda di adeguare la produzione alla richiesta in tempi brevissimi (a differenza delle aziende completamente meccanizzate obbligate a produzione di massa dello stesso articolo). Questa flessibilità permette di raggiungere clientele diversificate.

In the 80s "Vetreria Tammaro e Figli" glass factory was born. The generational leap brought part of the production process to mechanization, which, alongside the classic glass processing, allowed the company to adapt the production to the market demand in a very short time (unlike fully mechanized companies obliged to mass production of the same article). This flexibility of production did allow us to reach diversified customers.

Lo spettro della globalizzazione e il fulmineo sviluppo dei paesi extra europei instillano nella mente del giovane Franco , figlio di Carmine, l'idea di lanciare sul mercato il prodotto d'illuminazione assemblato. Nasce ,così, negli anni 90' la F.A.N. Europe lighting che , in breve tempo s'impone sul mercato proponendo articoli nei quali il vetro rimanga elemento primario.

The threat of globalization and the rapid development of extra-European countries instilled in the mind of young Franco, Carmine's son, the idea of launching the assembled lighting product on the market. Thus F.A.N. Europe Lighting was born in the 90s. In a short time, this new company imposed itself on the market by offering assembled light items in which glass remains a primary element.

Alla fine degli anni 90' , per mantenere alto il target di qualità e al contempo diversificare sempre di più la gamma dei prodotti, Franco fonda la L.V.F. , azienda che produce parti metalliche per illuminazione: alla lavorazione del vetro soffiato e centrifugato si aggiunge, con la nascita dell'azienda 2T, quella del vetro a lastra. La F.A.N. Mantiene il ruolo di assemblaggio, controllo qualità e lancio sul mercato del prodotto finito.

At the end of the 90s, to keep the quality target high and at the same time to diversify the range of products more and more, Franco founded L.V.F. , a company that manufactured metal parts for lighting. With the creation of the company 2T, production of bent glass was added to the processing of blown and centrifuged glass. In this way F.A.N. Maintained the role of assembly, quality control and launch of the finished product on the market.

Nel 2010 , periodo di crisi economica europea, i costi ormai diventati insostenibili per la gestione della produzione del vetro, unitamente a un carenza di materia prima nel paese e a un non ben delineato settore di ricerca e sviluppo delle tecnologie emergenti nel campo dell'illuminazione (LED), costringono Franco a spegnere definitivamente i forni. Comincia così la collaborazione con aziende extraeuropee che possano realizzare sia prodotti altamente tecnologici che dal design ricercato, rispettando costantemente le linee guida e gli standard richiesti da Franco e i requisiti delle normative europee. La F.A.N. Europe lighting lancia sul mercato i marchi IN.TEC. E Luce Ambiente Design che racchiudono le esigenze tecnologiche e stilistiche per qualunque ambiente.

On 2010, a period of European economic crisis, production costs became unsustainable for the management of glass production. Furthermore, the shortage of raw materials in our country and a poorly defined sector of research and poor development of emerging technologies in the field of lighting (LED), did force Franco to permanently switch off the ovens. Thus cooperation with non-European companies did begin and did start the possibility to create both highly technological products and refined designed products, constantly respecting the guidelines and standards required by Franco and the requirements of European norms and regulations. F.A.N. Europe Lighting launched the brands IN.TEC and Luce Ambiente Design on the market that both encompass the technological and stylistic needs for any light environment.

Oggi la FAN Europe lighting si affaccia al futuro: i fratelli Tammaro Letizia, Carmine e Davide si affiancano al padre per gestire rispettivamente amministrazione e rapporti con l'estero, ricerca - sviluppo e logistica , area commerciale e assistenza con un team affiatato di 40 persone. Alla storica sede di Nola con i suoi 15000 metri quadrati coperti su 30000 totali si aggiungerà la nuova sede a Milano studiata per ampliare i rapporti con l'Europa, migliorare ulteriormente la logistica ma soprattutto per un controllo qualità sempre più minuzioso e attento.

Today FAN Europe lighting faces the future: the brothers Tammaro Letizia, Carmine and Davide work alongside their father to manage the administration and foreign relations, research - development and logistics, commercial area and assistance with a close-knit team of 40 people . The new headquarters in Milan, designed to expand relations with Europe, will be added to the historic site in Nola with its 15,000 square meters out of 30,000 in total, improving logistics but above all for increasingly meticulous and careful quality control.

Nasce l'app intec, la luce diventa smart con prodotti app e voice control. Nuovi servizi di customizzazione e domotica per adattare in maniera funzionale i prodotti professionali. Luci industriali ad alti lumen e consumi green. Cataloghi in continua evoluzione per tenersi al passo con la tecnologia che avanza e nuovi design.

The Intec app is born, the light becomes smart with app products and voice control. New personalization and home automation services for the functional adaptation of professional products. High lumen industrial lights and green consumption. Constantly evolving catalogues to keep up with advancing technology and new designs.

La tradizione continua, diventa innovativa; un nuovo concetto di luce fatto su misura per tutti gli ambienti e gli stili.

The tradition continues, it becomes innovative; a new concept of light tailored to all environments and styles.

Good Light & Good Style!

Good Light & Good Style!

fan europe Illuminazione su misura

L'evoluzione stilistica e tecnologica dell'illuminazione focalizzata sempre più su un progetto luminoso piuttosto che sull'estetica del corpo illuminante fine a se stesso, ha indirizzato l'evoluzione illuminotecnica sempre più verso progetti di illuminazione realizzati su misura, atti a valorizzare gli ambienti architettonici, rendendo i corpi illuminanti degli strumenti discreti, al servizio del progetto architettonico, ancora protagonisti del design innovativo ma amalgamati al progetto come corpo illuminante e non più come oggetto luminoso.

Questa fase evolutiva ci ha spinto ad ampliare la divisione Project ed Illuminotecnica della nostra azienda, divisione che si dedica ai progetti su misura.

La nostra divisione Project ed Illuminotecnica esegue già servizio di progettazione, realizzazione prototipi, test e controllo produzione durante la fabbricazione di ogni prodotto presente sul nostro catalogo.

Quando i nostri prodotti non incontrano le esigenze del cliente, ci occupiamo della realizzazione di prodotti "customizzati" partendo dalla ricerca dei materiali giusti, del LED più idoneo allo spettro estetico e normativo richiesto, e dell'elettronica di controllo più adeguata. Ogni customizzazione su misura viene curata nei minimi dettagli per essere adeguata alle esigenze specifiche del progetto e per valorizzare al massimo gli ambienti del disegno illuminotecnico, in modo che ogni architettura sia messa in risalto da un efficace dialogo tra estetica e tecnica.

Grazie a strumenti informatici e software di calcolo fotometrico siamo in grado di fornire per ogni nuovo prodotto i calcoli fotometrici per un adeguato sviluppo progettuale illuminotecnico.

The stylistic and technological evolution of lighting focused more and more on a lighting project rather than on the aesthetics of the lighting body itself, has increasingly directed the evolution of lighting technology towards tailor-made lighting projects, aimed at enhancing the environments architectural, turning the lighting bodies in discreet lighting instruments, at the service of the architectural project, still protagonists of the innovative design but amalgamated with the project as a lighting body and no longer as a luminous object.

This evolutionary phase prompted us to expand the Project and Lighting Engineering division of our company, a division dedicated to tailor-made projects.

Our Project and Lighting Engineering division already carries out design, prototype, test and production control services during the manufacture of each product on our catalogue.

When our products do not meet the customer's needs, we take care of the creation of "customized" products starting from the research for the right materials, the most suitable LED for the aesthetic and regulatory spectrum required, and the most suitable control system electronics. Each custom-made customization is taken with the highest care till the smallest detail to be appropriate to the specific needs of the project and to make the best lighting design environments, so that each architecture is highlighted by an effective dialogue between aesthetics and technique.

Thanks to highly professional devices and photometric calculation software we are able to provide photometric calculations for each new product for adequate lighting design development and project calculation.

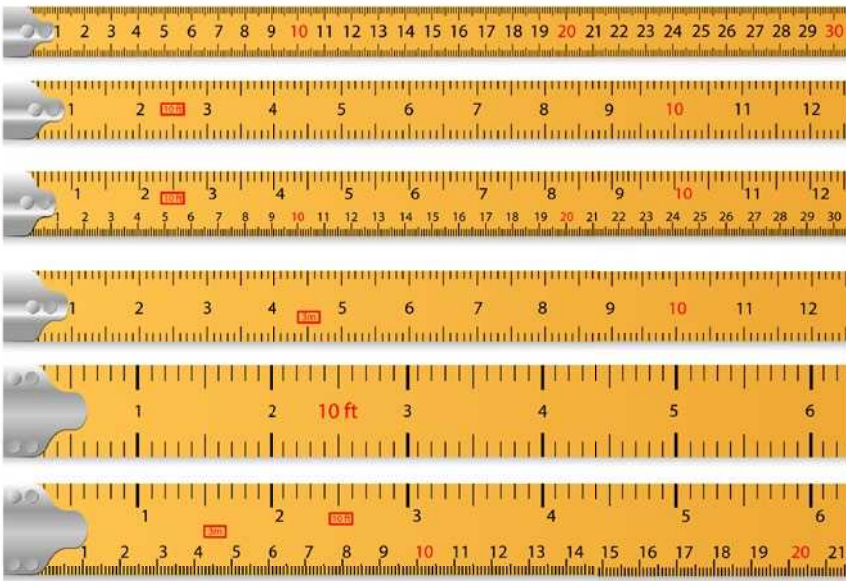

EASY DOMOTICA

Easy domotica Easy Home Automation

Con questo segmento tecnico intendiamo soddisfare al meglio la crescente esigenza di migliorare la qualità di vita domestica, e lavorativa attraverso l'utilizzo di dispositivi di illuminazione sempre più interconnessi fra loro tramite collegamenti sempre più semplificati dalle tecnologie wireless.

I dispositivi di illuminazione diventano uno strumento estremamente personalizzato e modulabile che si fondono, anche in diversi momenti della giornata, con le evolute esigenze di illuminazione non più fine a se stessa ma adattata ai diversi umori sia di una utenza professionale che di una utenza domestica o ludica.

Questa sezione raggruppa prodotti a bassa tensione che è possibile collegare con alimentatori a tensione costante in parallelo e si caratterizzano per la estrema flessibilità e modularità essendo essi compatibili con centraline di controllo in Radio Frequenza 2,4G, Infrarossi, Wifi o Bluetooth. Le centraline a loro volta prevedono interfacce wifi, bluetooth oppure possono essere controllate tramite wall pad o radiocomandi.

Good solution for your Smart life!

Ogni momento della vita quotidiana richiede la giusta luce.

Grazie all'illuminazione Smart, creare l'atmosfera ideale per tutti i momenti sarà possibile con i nostri prodotti Wi-fi e Bluetooth.

Tramite la nostra app Smart INTEC è possibile comandare da remoto tutti gli apparecchi luminosi per accendere o spegnere, cambiare temperatura colore Kelvin della luce e anche impostare scene.

Tra i nostri articoli troverai una selezione di prodotti a LED integrato pronti all'installazione ma anche tutti gli accessori necessari per rendere smart qualunque apparecchio domestico e non. Una volta collegata e scaricata l'app INTEC, la creazione delle varie stanze sarà semplice e intuitivo grazie alle istruzioni step by step.

Per controllare i nostri prodotti smart è possibile anche utilizzare gli smart speaker e video Amazon e Google. Abilita la skill e controlla i dispositivi semplicemente parlando.

Every moment of everyday life require the right light.

Thank to the Smart lighting it will be possible to create the ideal atmosphere connecting them and controlling them thorough Wi-fi or Bluetooth connection.

With our APP Smart Intec it is possible to control from remote all the lighting devices with on-off, kelvin colour temperature changing, light colour and scenes functions.

To instore some smart lamps it is necessary just your standard home electric connection, and wifi connection. Once connected the lamp and downloaded the APP Smart Intec it will be very easy to create groups and rooms in very easy process thank to the instructions step by step on the App.

The smart lamps can be controlled also with Wifi voice control devices.

SMART INTEC
Bluetooth
Sig mesh

La rete Bluetooth è stata ben accolta nell'illuminazione industriale, commerciale e domestica, in quanto uno dei sistemi di controllo dell'illuminazione intelligente più semplici e convenienti che svolge un ruolo chiave nel facilitare l'inter-dialogo tra i dispositivi di illuminazione. I nostri articoli Bluetooth Sig Mesh possono essere collegati con i dispositivi intelligenti tramite l'APP Smart Intec e ogni dispositivo di illuminazione può comunicare con un altro numero infinito di dispositivi attraverso la rete mesh entro una distanza di 15m per ogni dispositivo.

La rete Mesh Bluetooth può essere controllata da remoto tramite Wifi grazie alla connessione del gateway Bluetooth il quale a sua volta può connettersi ai dispositivi voice control Alexa e Google.

Per tutti gli utenti, i prodotti mesh Bluetooth sono anche comodi da usare. Abilitata da una rete di dispositivi su larga scala e in grado di sfruttare il basso consumo energetico, una rete mesh Bluetooth può supportare migliaia di dispositivi che lavorano contemporaneamente. Quindi, non importa se sei a casa o in ufficio, puoi sempre eseguire un gran numero di dispositivi intelligenti connessi allo stesso tempo. Di conseguenza, i prodotti Bluetooth mesh smart forniscono una gamma completa di comodità per vivere e lavorare senza preoccuparsi degli alti costi energetici. Nella casa intelligente, il Bluetooth abbassa la soglia di utilizzo dei dispositivi domestici intelligenti con il suo basso consumo energetico, l'elevata compatibilità e le caratteristiche di alta sicurezza, fornendo un'esperienza domestica più economica, più user-friendly e più intelligente. Senza l'autorizzazione dell'utente, il segnale Bluetooth non sarà in grado di connettersi e tracciare il dispositivo, proteggendo la privacy dell'utente.

Bluetooth mesh has been well received across the industrial, commercial and domestic lighting, as one of the easiest and much convenient smart lighting control systems playing a key role in facilitating the inter-dialogue between lighting devices.

Our Bluetooth mesh items can be connected with the smart devices through the APP Smart Intec and each lighting device can communicate with other infinite number of devices through the mesh network with all other devices within a distance of 15m.

The Bluetooth mesh network can be controlled from remote area through Wifi thank to the connection of Bluetooth gateway that can connect in turn to Alexa and Google voice controls.

For individual users, Bluetooth mesh products are also convenient to use. Enabled by a large-scale device network and able to take advantage of low power consumption, a Bluetooth mesh network can support thousands of devices working simultaneously. So, no matter if you are at home or in the office, you can always run a large number of connected smart devices at the same time. As a result, Bluetooth mesh smart products provide a full range of conveniences for living and working without worrying about high energy costs.

In the smart home, Bluetooth lowers the threshold of using smart home devices with its low power consumption, high compatibility, and high-security characteristics, providing a lower cost, more user-friendly, and smarter home experience. Without the user's permission, the Bluetooth signal will not be able to connect and track any device, protecting the user's privacy.

Prodotto UGR
unified glare rating

Sistema di illuminazione UGR

UGR è un indice unificato in campo internazionale, sviluppato dalla CIE (commission international de l'Enclaire), per la valutazione dell'abbagliamento diretto derivante dall'impianto di illuminazione. La norma europea per l'illuminazione dei posti di lavoro in interni **UNI-EN 12464-1** richiede un valore UGR specifico per ogni applicazione, compreso tra **10 e 30: più basso è il valore, minore è l'abbagliamento**

Unified glare rating

UGR is an international unified data, developed by CIE (commission international de l'Enclaire) for the avaluation of the glaning degree of the light sources. The European norme for the lighting of te specifical working place **UNI-EN 12464-1** requires a value UGR for every application, included between 10 and 30: lower is the value, lower is the anti glare ratee.

CLASSE IP - *IP CLASS*

Tutti i prodotti presenti nel catalogo senza specifica grado IP si intendono **IP20**
All items in the catalogue without IP rating specific are **IP20**

iNTEC[®]
LIGHT

INTEC fa un salto nel futuro con il sistema Davinci, Sistema progettato per integrarsi totalmente con l'architettura degli ambienti. Esso può essere fissato al soffitto o alle pareti, Inserito nella muratura ad incasso a filo oppure nella versione a sospensione con luce bi-emissione.

Il binario Davinci è un binario completamente elettrificato a bassa tensione e si completa con elementi luminosi a LED inseribili semplicemente con un click, grazie all'incastro a sfere volenti, lungo tutto il percorso. Frutto della ricerca tecnologica più avanzata, il sistema consente di creare luce che scaturisce direttamente dalle pareti o dal soffitto, e gioca con gli spazi abitativi tracciando segni luminosi che variano a seconda della posizione del corpo illuminante, posizione che può essere modificata con la massima versatilità in ogni momento grazie al semplice inserimento dei corpi illuminanti all'interno del binario tramite il fluido sistema di innesti a sfere volenti. La diversificata gamma di corpi illuminanti Davinci, e la ampia scelta di forme, angoli e connessioni permettono la realizzazione di disegni illuminotecnici che esprimono la massima dinamicità e poliedricità delle personalizzazioni.

INTEC leap forward into the future with the Davinci system, System designed to fully integrate with the architecture environments. It can be fixed to the ceiling or to the walls, Inserted in the flush-mounted masonry or mounted in suspension version with single or bi-emission light.

Davinci track is a fully electrified low voltage track system and it is completed with LED light elements which can be inserted simply with a click, thanks to the joint a rolling spheres, all along the path. Fruit of most advanced technological research, the system allows you to create light that springs directly from the walls or ceiling, and plays with living spaces by drawing luminous signs that vary according to the position of the luminaire, position which can be modified with maximum versatility at any time thanks to the simple insertion of the LED luminous bodies inside the track by means of the fluid ball bearings. The diversified range of lighting fixtures Davinci, and the wide choice of shapes, angles and connections allow the creation of lighting designs which express the maximum dynamism and versatility of the customizations.

In base allo spazio da illuminare, è possibile aggiungere, rimuovere o orientare gli apparecchi, quando e dove necessario grazie ad un semplice click.

Il sistema Davinci a sfere volventi è basato sul sistema plug & play, non ha quindi bisogno di complessi interventi tecnici. Ogni corpo illuminante Davinci ha solo bisogno di essere posizionato, inserito ed acceso. All'interno del binario Davinci si può operare con inserimento di una vasta gamma di moduli di illuminazione decorativa sia con fari a spot orientabili, lampade sospese, che con lampade a led lineari fisse o mobili.

Depending on the space to be illuminated, it is possible to add, remove or orient the appliances when and where necessary thanks to a simple click.

The Davinci rolling ball system is based on the system plug & play, therefore it does not need complex interventions of technicians. Every Davinci luminaire just needs to be positioned, inserted and switched on.

Inside the track Davinci can be inserted a wide range of decorative lighting modules with headlights, adjustable spots, suspended lamps, and with LED linear lamps fixed or movable.

TRACK

Schema di montaggio sistema binari
Assembling technical sheet track rail system

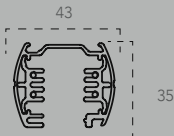

LED-TRACK-1M
8031439221263

Binari elettrificati trifase in alluminio bianco 1 metro (tappi inclusi)
1 meter track rail in white aluminium with three phase adaptor (endcap included)

Misure - Size
dimensioni in mm
size mm

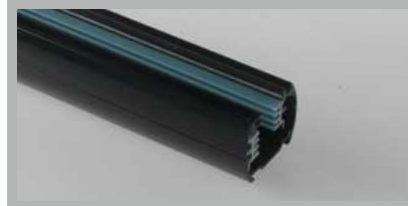

LED-TRACK-2M
8031440360340

Binari elettrificati trifase in alluminio bianco 2 metri (tappi inclusi)
2 meters track rail in white aluminium with three phase adaptor (endcap included)

LED-TRACK-3M
8031440360357

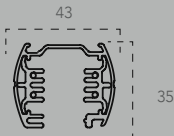

Binari elettrificati trifase in alluminio bianco 3 metri (tappi inclusi)
3 meters track rail in white aluminium with three phase adaptor (endcap included)

LED-TRACK-1M-NERO
8031440360425

Binari elettrificati trifase in alluminio nero 1 metro (tappi inclusi)
1 meter track rail in black aluminium with three phase adaptor (endcap included)

Misure - Size
dimensioni in mm
size mm

LED-TRACK-2M-NERO
8031440360364

Binari elettrificati trifase in alluminio nero 2 metri (tappi inclusi)
2 meters track rail in black aluminium with three phase adaptor (endcap included)

LED-TRACK-3M-NERO
8031440360371

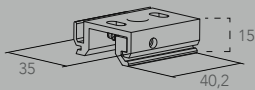

Binari elettrificati trifase in alluminio nero 3 metri (tappi inclusi)
3 meters track rail in black aluminium with three phase adaptor (endcap included)

LED-TRACK-PL
8031440358668

Kit 2pz. basette bianche per binario guida trifase
Kit 2pcs. white Base for track rail three phase

Misure - Size
dimensioni in mm
size mm

LED-TRACK-PL-NERO
8031440358699

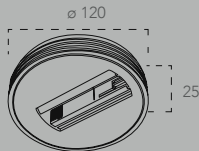

Kit 2pz. basette nere per binario guida trifase
Kit 2pcs. black Base for track rail three phase

LED-TRACK-BASE
8031440361668

Base tonda bianca per faro con adattatore trifase (non adatto per art. KONE, ACTION,EAGLE)
White round base for track lamp with three phase adaptor (not useful items KONE, ACTION, EAGLE)

Misure - Size
dimensioni in mm
size mm

LED-TRACK-BASE NERO
8031440361675

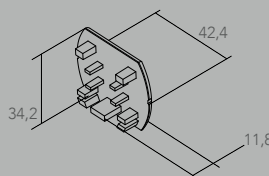

Base tonda nera per faro con adattatore trifase (non adatto per art. KONE, ACTION,EAGLE)
Black round base for track lamp with three phase adaptor (not useful items KONE, ACTION, EAGLE)

LED-TRACK-CAP
8031414866229

Tappo per binario bianco
White cap for three phase track rail

Misure - Size
dimensioni in mm
size mm

LED-TRACK-CAP NERO
8031414866205

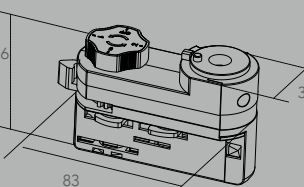

Tappo per binario nero
Black cap for three phase track rail

LED-TRACK-ADAT
8031414866410

Adattatore bianco per binario trifase
White adapt for three phase track rail

Misure - Size
dimensioni in mm
size mm

LED-TRACK-ADAT NERO
8031414866397

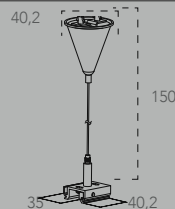

Adattatore nero per binario trifase
Black adapt for three phase track rail

LED-TRACK-S-1,5
8031440359061

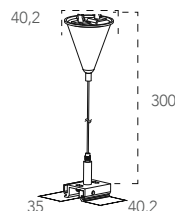

Sistema sospensione 1,5 metri per binari bianco
White suspension kit 1,5 meters for track rail

Misure - Size
dimensioni in mm
size mm

LED-TRACK-S-3
8031440359047

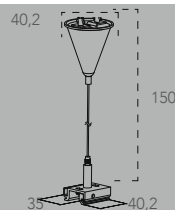

Sistema sospensione 3 metri per binari bianco
White suspension kit 3 meters for rail track

LED-TRACK-S-1,5-NERO
8031440359078

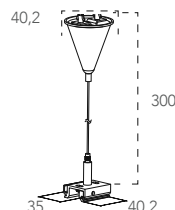

Sistema sospensione 1,5 metri per binari nero
Black suspension kit 1,5 meters for track rail

Misure - Size
dimensioni in mm
size mm

LED-TRACK-S-3-NERO
8031440359054

Sistema sospensione 3 metri per binari nero
Black suspension kit 3 meters for track rail

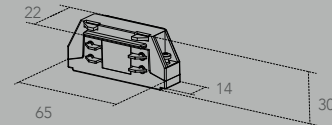

LED-TRACK-I-MINI
8031440358705

Connettore lineare mini bianco a scomparsa per sistema binari trifase
White mini invisible connector for three phase track rail system

Misure - Size
dimensioni in mm
size mm

LED-TRACK-I-MINI-NERO
8031440357845

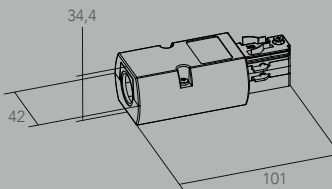

Connettore lineare mini nero a scomparsa per sistema binari trifase
Black mini invisible connector for three phase track rail system

LED-TRACK-NEST
8031440311564

Innesto bianco sinistro per binari guida entrata L N + cavo di terra per circuito a trifase
White Recess power connector left side for three phase track rail, L N input + ground cable for three-phase circuit

Misure - Size
dimensioni in mm
size mm

LED-TRACK-NEST-R
8031440359009

Innesto bianco destro per binari guida entrata L N + cavo di terra per circuito a trifase
White Recess power connector right side for three phase track rail, L N input + ground cable for three-phase circuit

LED-TRACK-NEST-NERO
8031440360418

Innesto nero sinistro per binari guida entrata L N + cavo di terra per circuito a trifase
Black Recess power connector left side for three phase track rail, L N input + ground cable for three-phase circuit

LED-TRACK-NEST-R NERO
8031440359016

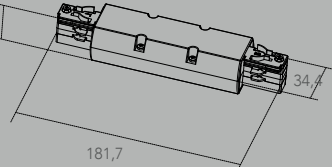

Innesto nero destro per binari guida entrata L N + cavo di terra per circuito a trifase
Black Recess power connector right side for three phase track rail, L N input + ground cable for three-phase circuit

LED-TRACK-I
8031440311526

Connettore bianco lineare per binari sistema trifase
White straight connector for three phase track rail system

Misure - Size
dimensioni in mm
size mm

LED-TRACK-I-NERO
8031440360432

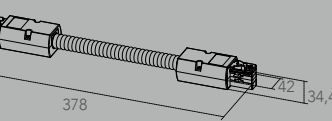

Connettore nero lineare per binari sistema trifase
Black straight connector for three phase track rail system

LED-TRACK-FLEX
8031440359085

Connettore bianco flessibile per sistema trifase
White flexible power connector for three phase track rail system

Misure - Size
dimensioni in mm
size mm

LED-TRACK-FLEX-NERO
8031440359030

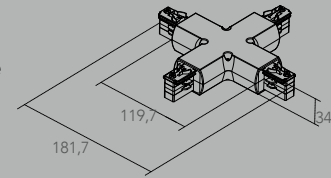

Connettore nero flessibile per sistema trifase
Black flexible power connector for three phase track rail system

LED-TRACK-X
8031439231262

Connettore a croce bianco per sistema trifase
White extension X shape for three phase track rail system

Misure - Size
dimensioni in mm
size mm

LED-TRACK-X-NERO
8031440360395

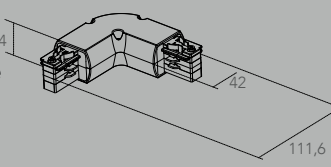

Connettore a croce nero per sistema trifase
Black extension X shape for three phase track rail system

LED-TRACK-L-R
8031440358972

Connettore bianco track destro a elle per binari guida trifase
White L connector right side for three phase track rail system

Misure - Size
dimensioni in mm
size mm

LED-TRACK-L
8031439241261

Connettore bianco track sinistro a elle per binari guida trifase
White L connector left side for three phase track rail system

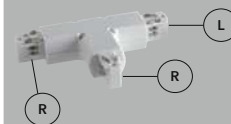

LED-TRACK-L-R-NERO
8031440359023

Connettore nero track destro a elle per binari guida trifase
Black L connector right side for three phase track rail system

LED-TRACK-L NERO
8031440360401

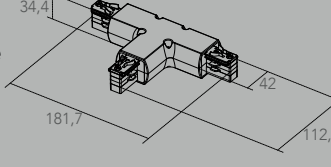

Connettore nero track sinistro a elle per binari guida trifase
Black L connector left side for three phase track rail system

LED-TRACK-T
8031440311571

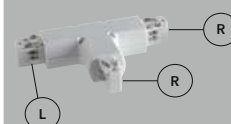

Connettore bianco destro a T per binari guida entrata L N + cavo di terra per circuito a trifase
White T connector right side for three phase track rail system, L N input + ground cable

Misure - Size
dimensioni in mm
size mm

LED-TRACK-T NERO
8031440360388

Connettore nero destro a T per binari guida entrata L N + cavo di terra per circuito a trifase
White T connector right side for three phase track rail system, L N input + ground cable

LED-TRACK-T-L1
8031440358999

Connettore bianco sinistro a T per binari guida entrata L N + cavo di terra per circuito a trifase
White T connector right side for three phase track rail system, L N input + ground cable

LED-TRACK-T-L1 NERO
8031440358996

Connettore nero sinistro a T per binari guida entrata L N + cavo di terra per circuito a trifase
White T connector right side for three phase track rail system, L N input + ground cable

LED-TRACK-T-R1
8031440357449

Connettore bianco destro a T per binari guida entrata L N + cavo di terra per circuito a trifase
White T connector right side for three phase track rail system

Misure - Size
dimensioni in mm
size mm

LED-TRACK-TR1 NERO
8031440357456

Connettore nero destro a T per binari guida entrata L N + cavo di terra per circuito a trifase
Black T connector right side for three phase track rail system

Misure - Size
dimensioni in mm
size mm

LED-TRACK-T-R2
8031440357487

Connettore bianco sinistro a T per binari guida entrata L N + cavo di terra per circuito a trifase
White T connector left side for three phase track rail system

Misure - Size
dimensioni in mm
size mm

LED-TRACK-TR2 NERO
8031440357661

Connettore nero sinistro a T per binari guida entrata L N + cavo di terra per circuito a trifase
Black T connector left side for three phase track rail system

Misure - Size
dimensioni in mm
size mm

LED-TRACK-1M-INC
8031440361804

Binario trifase ad incasso bianco 1m
Recessed track rail in white aluminium 1m

Misure - Size
dimensioni in mm
size mm

LED-TRACK-2M-INC
8031440361811

Binario trifase ad incasso bianco 2m
Recessed track rail in white aluminium 2m

Misure - Size
dimensioni in mm
size mm

LED-TRACK-1M-INC NERO
8031414864836

Binario trifase ad incasso nero 1m
Recessed track rail in black aluminium 1m

Misure - Size
dimensioni in mm
size mm

LED-TRACK-2M-INC NERO
8031414864058

Binario trifase ad incasso nero 2m
Recessed track rail in black aluminium 2m

Misure - Size
dimensioni in mm
size mm

INC-TRACK-STAFFE
8031414879700

Kit 2pz staffe zincate per binario incasso
Kit 2pcs metal bracket for recessed track rail

Misure - Size
dimensioni in mm
size mm

INC-TRACK-NEST
8031414871193

Innesto sinistro per binario ad incasso trifase bianco
White recess power connector left side for three phase track rail

Misure - Size
dimensioni in mm
size mm

INC-TRACK-NEST-R
8031414871179

Innesto destro per binario ad incasso trifase bianco
White recess power connector right side for three phase track rail

Misure - Size
dimensioni in mm
size mm

INC-TRACK-NEST NERO
8031414871209

Innesto sinistro per binario ad incasso trifase nero
Black recess power connector left side for three phase track rail

Misure - Size
dimensioni in mm
size mm

INC-TRACK-NEST-R NERO
8031414871186

Innesto destro per binario ad incasso trifase nero
Black recess power connector right side for three phase track rail

Misure - Size
dimensioni in mm
size mm

INC-TRACK-I
8031414871254

Connettore bianco lineare ad incasso per binari trifase
White recess straight connection for three phase track rail system

Misure - Size
dimensioni in mm
size mm

INC-TRACK-I NERO
8031414871261

Connettore nero lineare ad incasso per binari trifase
Black recess straight connection for three phase track rail system

Misure - Size
dimensioni in mm
size mm

INC-TRACK-L-R
8031414871216

Connettore bianco ad incasso destro a L per binari trifase
White recess L connector right side for three phase track rail system

Misure - Size
dimensioni in mm
size mm

INC-TRACK-L
8031414871230

Connettore bianco ad incasso sinistro a L per binari trifase
White recess L connector left side for three phase track rail system

Misure - Size
dimensioni in mm
size mm

INC-TRACK-L-R NERO
8031414871223

Connettore nero ad incasso destro a L per binari trifase
Black recess L connector right side for three phase track rail system

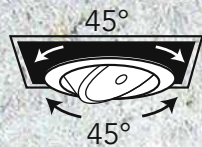

Misure - Size
dimensioni in mm
size mm

INC-TRACK-L NERO
8031414871247

Connettore nero ad incasso sinistro a L per binari trifase
Black recess L connector left side for three phase track rail system

Misure - Size
dimensioni in mm
size mm

Incasso antiriflesso luce spot
con doppia orientabilità

EASY DOMOTICA 24V

Con questo segmento tecnico intendiamo soddisfare al meglio la crescente esigenza di migliorare la qualità di vita domestica, e lavorativa attraverso l'utilizzo di dispositivi di illuminazione sempre più interconnessi fra loro tramite collegamenti sempre più semplificati dalle tecnologie wireless.

I dispositivi di illuminazione diventano uno strumento estremamente personalizzato e modulabile che si fondono, anche in diversi momenti della giornata, con le evolute esigenze di illuminazione non più fine a se stessa ma adattata ai diversi umori sia di una utenza professionale che di una utenza domestica o ludica.

Questa sezione raggruppa diverse tipologie di prodotti 24V (ad esempio indoor e outdoor) che, grazie all'utilizzo di accessori easy connector, possono essere connessi tra di loro per il controllo simultaneo. Il controllo dei dispositivi diventa easy: la connessione ad alimentatori a tensione costante in parallelo è compatibile con centraline di controllo in Radio Frequenza 2,4G, Infrarossi, Wifi o Bluetooth e le centraline, a loro volta, prevedono interfacce wifi, bluetooth oppure possono essere controllate tramite wall pad o radiocomandi.

With this technical segment, we intend meet in the best way the growing need to improve the quality of home and working life through the use of lighting devices that are increasingly interconnected with each other through connections that are increasingly simplified by wireless technologies.

The lighting devices become an extremely personalized and modular tool that merge, even at different times of the day, with the evolved lighting needs no longer as light source itself but light adapted to the different moods of both professional users, domestic users, playful users.

This section groups 24V products (for example indoor or outdoor) that, thanks to easy connector accessories, can be connected each other for simultaneous control.

Devices control becomes easy: constant voltage power supply in parallel connection system are compatible with 2.4G Radio Frequency, Infrared, Wifi or Bluetooth control units and the control units can be controlled by wifi, bluetooth devices or via a wall pad or remote control.
